Yost Family Chiropractic supports the wellness lifestyle from conception and throughout childhood.

Yost Family Chiropractic, which opened over four years ago, has a team of two doctors who specialize in family health, pregnancy, and pediatrics. The weekend of May 9th - May 11th, both doctors attended the International Chiropractic Pediatric Association's (ICPA) Family Wellness Extravaganza seminar in Philadelphia, to help better serve our community. The doctors continually attend educational seminars to learn the latest in chiropractic advances, technique, research, and technology.

In celebration of this educational seminar, Yost Family Chiropractic is offering **complimentary consultations** to the community. "We're definitely seeing a trend in more families taking more control of their overall wellness," said Heather Yost, D.C. Anyone wishing to schedule a consultation with the doctors or to receive information about the wellness lifestyle, you can contact us at 515-278-YOST or visit us at www.YostFamilyChiropractic.com.
